	Jim,			
	Attached is the first issue of Media Notes, a publication that FBIS plans to publish daily, Monday to Friday beginning 14 September. The purpose of the publication is to provide the DDCI and you with a brief summary of significant media items from around the world. We intend to avoid duplication of the US press. Most of the items will be drawn from broadcasts monitored during the previous 24 hours. Other items will include short translations by FBIS staff linguists and perspectives by FBIS' Analysis Group.			A STATE OF THE STA
	Your comments on the value of the <u>Media Notes</u> , or other suggestions, would be most welcome.
